SILO'S 2ND ASSISTIVE TECHNOLOGY FAIR

WEDNESDAY, MARCH 20, 2013

11AM—3PM

Come see the latest in assistive technology from the country's top suppliers at SILO. This is a FREE event for all of Long Island. You will see what's new in devices for the blind, deaf and other disabled persons.

Did you know SILO has a mobile assistive technology lab? This gives us the ability to go out into the community, or into the homes of individuals with disabilities and offer comprehensive programs.
